

1. Identify the meaning of the idiom/phrase from the given options-

The saint's life was "an open book".

Answers: 2

1. An autobiography
  2. One that held no secrets
  3. An ideal life
  4. A pleasant life
- 

2. The passage below is accompanied by a set of questions. Choose the best answer to each question-

During his early days as editor of the popular magazine, Saturday Evening Post, George Lorimar did much of the reading of unsolicited stories. This meant endless hours of sitting at the desk, pouring over big stacks of manuscripts, trying to decide which were worthy of publication and which were not. Lorimar became an expert at making these decisions. One day he received a huffy letter from a would-be writer who had a complaint. "Last week you rejected my story," she wrote. "I am positive you did not read it, because, as a test, I pasted together pages 14, 15 and 16. The manuscript came back with the pages still pasted. There is no question in my mind but that you are a sham and a disgrace to your profession." Lorimar's reply was succinct: "Madam, at breakfast when I crack open an egg, I don't have to eat the whole egg to know it is bad."

Lorimar did much reading of the stories -

Answers: 4

1. if they were the solicited ones
  2. when they appeared to be bad
  3. when they were from women writers
  4. when they came unsolicited
-

3. The passage below is accompanied by a set of questions.  
Choose the best answer to each question-

During his early days as editor of the popular magazine, Saturday Evening Post, George Lorimar did much of the reading of unsolicited stories. This meant endless hours of sitting at the desk, pouring over big stacks of manuscripts, trying to decide which were worthy of publication and which were not. Lorimar became an expert at making these decisions. One day he received a huffy letter from a would-be writer who had a complaint. "Last week you rejected my story," she wrote. "I am positive you did not read it, because, as a test, I pasted together pages 14, 15 and 16. The manuscript came back with the pages still pasted. There is no question in my mind but that you are a sham and a disgrace to your profession." Lorimar's reply was succinct: "Madam, at breakfast when I crack open an egg, I don't have to eat the whole egg to know it is bad."

Lorimar was a good editor because -

Answers: 3

1. his reply to the angry writer was polite
  2. he apologized for rejecting the story without reading
  3. he could find the worth of a story with a little effort
  4. he was prompt in writing letters
- 

4. The passage below is accompanied by a set of questions.  
Choose the best answer to each question-

During his early days as editor of the popular magazine, Saturday Evening Post, George Lorimar did much of the reading of unsolicited stories. This meant endless hours of sitting at the desk, pouring over big stacks of manuscripts, trying to decide which were worthy of publication and which were not. Lorimar became an expert at making these decisions. One day he received a huffy letter from a would-be writer who had a complaint. "Last week you rejected my story," she wrote. "I am positive you did not read it, because, as a test, I pasted together pages 14, 15

and 16. The manuscript came back with the pages still pasted. There is no question in my mind but that you are a sham and a disgrace to your profession.” Lorimar’s reply was succinct: “Madam, at breakfast when I crack open an egg, I don’t have to eat the whole egg to know it is bad.”

The lady wrote a huffy letter because -

Answers: 2

1. her story was rejected
  2. her story was rejected unread
  3. her story was rejected although it was good
  4. Lorimar was biased in his decision
- 

5. The passage below is accompanied by a set of questions. Choose the best answer to each question-

During his early days as editor of the popular magazine, Saturday Evening Post, George Lorimar did much of the reading of unsolicited stories. This meant endless hours of sitting at the desk, pouring over big stacks of manuscripts, trying to decide which were worthy of publication and which were not.   3. 627
  4. 369
- 

36. P, Q, R, S, T, U, V & W are eight friends sitting in a circle facing towards the centre.

W is to the immediate left of P but is not the neighbour of T and S.

U is to the immediate right of Q and V is a neighbour of T.

R is between T and U.

Which of the following statements is true?

Answers: 2

1. U is the neighbour of V
  2. V is between W and T
  3. W is between P and S
  4. T is between U and Q
  5. None of these
- 

37. Seven persons A, B, C, D, E, F and G are sitting in a straight line (not necessarily in the same order) facing north. Only two persons sit between F and G and G sits second to the left of B.

D sits third to the left of C.

E sits exactly between G and B and B sits at the extreme right end of the row.

Who amongst the following sits at the extreme left of the line?

Answers: 2

1. F
  2. D
  3. C
  4. E
  5. G
- 

38. Complete analogous pair

Dog : Bark : : Goat : ?

Answers: 1

1. Bleat
  2. Howl
  3. Grunt
  4. Bray
- 

39. Complete analogous pair-

Shield : Soldier

Answers: 3

1. Law : Court
  2. Stethoscope : Doctor
  3. Helmet : Rider
  4. Book : Reader
- 

40. Detect analogy :

Green : Violet : Orange

Answers: 3

1. They are primary colours.
  2. These colours do not occur together in a rainbow.
  3. They are made by mixing other colours.
  4. These colours are not found in butterflies.
- 

41. Choose or find odd word

Pineapple , Orange , Watermelon, Banana , Lemon

Answers: 4

1. Pineapple
  2. Orange
  3. Watermelon
  4. Banana
  5. Lemon
- 

42. Find the next in the sequence in the series:

8, 10, 14, 18,\_\_\_ , 34, 50, 66

Answers: 3

1. 24
  2. 25
  3. 26
  4. 27

43. If TABLE is coded as GZYOV, how is JUICE coded ?

Answers: 2

1. OZLFJ
  2. QFRXV
  3. HOFAD
  4. QZHMT
  5. EPQIL
- 

44. If orange is called butter, butter is called soap, soap is called ink, ink is called honey and honey is called orange, which of the following is used for washing clothes ?

Answers: 5

1. Honey
  2. Butter
  3. Orange
  4. Soap
  5. Ink
- 

45. If in a certain code language, 'oka peru' means 'fine cloth' ; 'meta lisa' means 'clear water' and 'dona lisa peru' means

'fine clear weather' , which word in that language means 'weather' ?

Answers: 4

1. peru
  2. oka
  3. meta
  4. dona
- 

46. E is the son of A.

D is the son of B.

E is married to C.

C is B's daughter.

How is D related to E ?

Answers: 4

1. Brother
  2. Uncle
  3. Father-in-law
  4. Brother-in-law
  5. None of these
- 

47.  $A + B$  means A is the father of B ;

$A - B$  means A is the wife of B ;

$A \times B$  means A is the brother of B ;

$A \div B$  means A is the daughter of B.

If  $P + R \div Q$ , which of the following is true ?

Answers: 3

1. P is the brother of Q
  2. P is the son of Q
  3. P is the husband of Q
  4. P is the father of Q
- 

48. Rahul is originally facing South-East. He then turns left 3 times. What direction is he now facing?

Answers: 1

1. South-West
2. South-East

3. North-East
  4. North-West
  5. None of these
- 

49. In a hockey match, India was trailing Pakistan by 3 goals at half-time. Did India win the match?

I: In the second half, India scored 4 goals

II: Pakistan scored a total of 4 goals in the match.

Answers: 4

1. If the data in statement I alone are sufficient.
  2. If the data in statement II alone are sufficient.
  3. If the data either in statement I alone or in statement II alone are sufficient.
  4. If the data given in both the statements I and II together are not sufficient.
  5. If the data in both the statements I and II together are necessary.
- 

50. Statements:

All beans are pulses

All pulses are crops.

No crop is seed

Conclusions:

I. All crops are pulses

II. All beans are crops

Answers: 3

1. Both I and II follow
  2. Either I or II follow
  3. Only II follows
  4. Neither I nor II follows
  5. Only I follows
- 

51. If a Computer in a network accesses resources that are shared by other computer is called as:

Answers: 2

1. Server

2. Client
  3. Reciever
  4. Sender
- 

52. In computer network a short message that travels around the communication medium is called

Answers: 4

1. Ring

78. Find the output of the following:

```
int main()
{
    float f = 1.30;
    int i=5;
    while(i--)
    {
        f = f - 0.01;
    }
    if(1.25 == f)
        printf("True ");
    else
        printf("False");
    return 0;
}
```

Answers: 4

1. Infinite Loop
  2. No Output
  3. False
  4. True
- 

79. Find the output of the following:

```
void test_rec(int *k)
{
    if(k==NULL)
        return ;
}
```

```

        *k = *k + 10 ;
        test_rec(--k);
    }
int main()
{
    register int a[] = {5,6,7,8,9};
    test_rec(((int *)(&a+1))-1);
    printf("%d",a[0]);
    return 0;
}

```

Answers: 1

1. Error
  2. 5
  3. Garbage
  4. 15
- 

80. Find the output of the following:

```

int main()
{
    signed int x = -10;
    unsigned int y = 10,z;
    y = y >> 2;
    z = y > x ? !y : ~x ;
    printf("%u",z);
    return 0;
}

```

Answers: 4

  2. 10
  3. -10
  4. 9
- 

81. Find the output of the following:

```

int main()
{
    char s1[] = "PreCAT";
    char s2[] = "Sunbeam";
}

```

```

    char *p1=s1,*p2=s2;
    while(*p1)
    {
        p1++;
        p2++;
    }
    printf("%s",p2);
    return 0;
}

```

Answers: 3

1. Sunbeam
  2. No Output
  3. m
  4. Tm
- 

```

82. #include <stdio.h>
int main()
{
    int x = -2, y=1, z=0;
    x = x && y || z;
    z = x++ - 1;
    z += -x++ + ++y;
    printf("x = %d\n",x);
    printf("z = %d\n",z);
    return 0;
}

```

Answers: 2

1. x=-3 z = -1
  2. x= 3 z = 0
  3. x=-2 z = 1
  4. x=2 z = 2
- 

83. Find the correct statement from the following:

fread can not read multiple records in one array in single call

Answers:1

1. fread function can read only binary data from the file.
2. fread function can read text / binary data from file.

3. fread can not be used to read 1 byte at a time.
  4. fread can not be used to read 1 byte at a time.
- 

```
84. #include <stdio.h>
struct course
{
    char *c;

};
int main()
{
    struct course c;
    struct course *s = &c;
    (*s).c = "PreCat";
    printf("%s", c.c);
    return 0;
}
```

Answers: 3

1. Compile time error
  2. Run time error
  3. PreCat
  4. None of the above
- 

85. Which of the following data structures is used to represent relationships between pairs, where relationship is not hierarchical ?

Answers: 1

1. Graph
  2. Tree
  3. Hash Table
  4. Queue
- 

86. A linear list of elements in which deletion can be done from one end (front) and insertion can take place only at the other end (rear) is known as a

Answers: 1

1. Queue
  2. Stack
  3. Tree
  4. LinkedList
- 

87. Which of the following algorithms has lowest worst case time complexity

Answers: 4

1. Insertion sort
  2. Selection Sort
  3. Quick Sort
  4. Merge Sort
- 

88. The following postfix expression is evaluated using a stack  
 $823^{23} * + 51 * -$

The top two elements of the stack after first  $*$  is evaluated

Answers: 1

1. 6, 1
  2. 5, 7
  3. 3.2
  4. 1, 5
- 

89. The time complexity of a bubble sort is ....

Answers: 3

1.  $O(n \log n)$
  2.  $O(2n)$
  3.  $O(n^2)$
  4.  $O(n)$
- 

90. A binary tree in which if all its levels except possibly the last, have the maximum number of nodes and all the nodes at the last level appear as far left as possible, is known as

Answers: 4

1. Full binary tree
2. AVL tree

3. Threaded tree
  4. Complete binary tree
- 

91. In singly circular linked list, insertion of a node at first position requires modification of?

Answers: 3

1. One pointer
  2. Two pointer
  3. Three pointer
  4. None
- 

92. A friend function declaration

Answers: 1

1. gives nonmember functions access to all data members
  2. is another term for an overloaded function within a class
  3. is any function created for you by the compiler like default constructor
  4. is any function outside the class with the same name as a function in the class
- 

93. 'this' pointer is not passed to \_\_\_\_\_ member functions.

Answers: 3

1. constructor
  2. mutator
  3. static
  4. virtual
- 

94. Which of the following member functions is/are not automatically added to every class, if we do not write our own.

- i-Assignment Operator
- ii-Copy constructor
- iii-parameterized constructors
- iv-default constructor

Answers: 3

1. i

2. i,ii
  3. iii
  4. ii,iv
- 

95. Linking of function to function call in execution is called \_\_\_\_\_.

Answers: 3

1. static Binding
  2. compile-time Binding
  3. late binding
  4. abstraction binding
- 

96. \_\_\_\_\_ member functions are used to set values of private data members by checking the correctness of the value to be set to data member.

Answers: 2

1. Accessors
  2. Mutators
  3. getters
  4. valuator
- 

97. Which of the following is not part of basic oops concepts?

- i-class
- ii-object
- iii-function
- iv-abstraction
- v-encapsulation

Answers: 2

1. i,ii
  2. iii
  3. iv,v
  4. v
- 

98. If a derived class object is created, which constructor is called first?

Answers: 3

1. Depends on mode of Inheritance
  2. Derived class constructor
  3. Base class constructor
  4. Depends on how we call the object
- 

99. What is the output of following code?

```
#include<iostream>
using namespace std;
class One {
    public:
    One()
    { cout << " One's constructor called" << endl; }
};
class Two {
    public:
    Two()
    { cout << "Two's constructor called" << endl; }
};
class Derived: public One, public Two {
    public:
    Derived()
    { cout << "Derived's constructor called" << endl; }
};
int main()
{
    Derived d;
    return 0;
}
```

Answers: 2

1. Compiler Dependent
2. One's constructor called      Two's constructor called  
Derived's constructor called
3. Two's constructor called      One's constructor called  
Derived's constructor called
4. Derived's constructor called      One's constructor  
called      Two's constructor called

---

100. Base class and derived class relationship comes under \_\_\_\_\_ oops concepts.

Answers: 3

1. Polymorphism
2. encapsulation
3. Inheritance
4. Modularity
